HELPING CHILDREN TO LEARN

KS2 Problem Solving Book 1

written by Anne Forster and Paul Martin

PROBLEM SOLVING is a series of three workbooks.

Book One 978 07217 0935 2

Book Two 978 07217 0936 9

Book Three 978 07217 0937 6

Notes for the teacher

The purpose of this series of books is to encourage and develop problem solving skills. Each book contains a series of carefully structured well-graded problems covering the Key Stage 2 mathematics curriculum. Both Number Problems and Word Problems, in computation, money, shape, area and measurement are presented attractively, helping to develop and extend a child's conceptual skills. Child-based contexts help to motivate the child to solve problems in their everyday experiences, using mathematical concepts in a practical way.

This book includes problems suitable for children in Years 3 and 4, in the following areas of mathematics: Number, Money, Shape, Measures, Symmetry, Time and Handling Data.
