

Olympics

1. Find the average points scored by the 3 medallists.

Gold **Silver** **Bronze**

Total score =

Average score =

2. Look at the medal table.

	Gold	Silver	Bronze
Australia	17	16	16
China	32	17	14
USA	31	39	30
Russia	27	22	39
GB	9	9	12

Who won the most medals? _____

Who won the most gold? _____

How many medals are shown on this table?

3. Find the total cost of cycling equipment.

Helmet **£14.99**

Shirt **£19.99**

Gloves **£39.99**

Shorts **£34.99**

What is the total cost for the 3 medallists?

× 3 =

4. The diver with the highest points wins.

a. Circle the medallists

gold → yellow

silver → blue

bronze → brown

5. The rower with the lowest times wins.

m = minutes

s = seconds

6m 46-50s

6m 33-40s

6m 34-24s

6m 30-76s

6m 32-64s

6m 39-74s

a. Gold medal time _____

b. Slowest time _____

c. Bronze medal time _____

d. How far behind was the silver from the gold?

1. 589-63

2. 590-13

3. 581-64

4. 589-98

5. 580-03

Find the difference between

b. gold and silver _____

c. silver and bronze _____

d. gold and bronze _____
