# Describing materials

There are lots of different **materials** all around us. We can describe what different materials are like.

Wool and **fabric** are soft.

Metals and **stones** are hard.

Stones and **rocks** are rough.

**Glass** is smooth.

Metal is shiny.

Clay is dull.

Paper is bendy.

Wood is stiff.

Glass is **transparent** (see-through).

Brick is **opaque** (not see-through).
