Step 1	Three- and four-digit \times one-digit	4
Step 2	Two-, three- and four-digit $\times 10$ and $\times 20$	6
Step 3	Two- and three-digit \times a teens number no carrying in the addition	8
Step 4	Two- and three-digit \times a teens number with carrying in the addition	10
Step 5	Three-digit \times a teens number five-digit answers	12
Check-up test 1	Up to four-digit \times one-digit, $\times 10$, $\times 20$ and \times teen numbers	14
Step 6	Three-digit \times any two-digit multiple of 10	16
Step 7	Two- and three-digit \times two-digit no carrying in the addition	18
Step 8	Two- and three-digit \times two-digit with carrying in the addition	20
Step 9	Three-digit \times two-digit five-digit answers	22
Step 10	Four- and five-digit \times two-digit	24
Check-up test 2	Up to five-digit \times two-digit	26
Step 11	Three-digit \times three-digit multiples of 100	28
Step 12	Three-digit \times three-digit multiples of 10	30
Step 13	Multiplying two three-digit numbers easier tables facts	32
Step 14	Multiplying two three-digit numbers harder tables facts	34
Check-up test 3	Three-digit \times three-digit	36
Step 15	Simple decimals \times one-digit	38
Step 16	Simple decimals \times two-digit	40
Step 17	Multiplying two decimals with one decimal place	42
Step 18	Multiplying two decimals with one or two decimal places	44
Final test	Long multiplication of whole numbers and decimals	46
