

Interpreting bar charts 1

Did you know?

You can use bar charts and other graphs to answer questions about the data. This is called **interpreting** the chart or graph.

These bar charts show the number of visits to the library over a two-week period.

Activities

- In week **1**, about how many people visited the library on:
a Monday? _____ b Wednesday? _____ c Saturday? _____
- In week **2**, about how many people visited the library on:
a Monday? _____ b Wednesday? _____ c Saturday? _____
- On which day in week **1** were there about **70** visitors? _____
- What might have happened on Thursday of week **2**?

- Why might more people visit the library on Saturdays?

- Which day in week **2** had the same number of visitors as Monday of week **1**? _____
