

# Writing task 3

## Save it!

A place near where you live is under threat from developers. You want to save it. You could choose an idea from the pictures or one of your own. Your task is to write a letter or flier explaining why it should be saved and persuading other people to agree with you.

Before you start writing, think about:

- the details of the place
- the reasons why it should be saved
- what you want other people to do
- how you will sound convincing

Use this space to write down some ideas.
