## Contents

Paper 1	Simple addition and subtraction; Pie charts; Simple multiplication; Simple division; Addition and subtraction problems; Multiplication problems; Division problems; Decimal addition and subtraction; Timetables; Symmetry; Decimal problems; Reduce to lowest terms; Fraction addition and subtraction; Fraction problems; Percentage problems; Venn diagrams; Money problems; Prime numbers; Measures addition and subtraction; Pictograms	4
Paper 2	Writing large numbers; Large number problems; Long multiplication; Decimal multiplication; Decimal division; Decimal problems; Fraction multiplication and division; Coordinates; Fraction problems; Fractions to percentages; Measures multiplication and division; Factors and multiples; Money problems; Shape properties; 24-hour clock; BODMAS; What is my number?; Greater equals and less than; Reflection and rotation; Venn diagrams	11
Paper 3	Missing numbers; Long multiplication; Decimal multiplication; Decimal division; Reduce to lowest terms; Fraction addition and subtraction; Venn diagrams; Divisibility rules; Coordinates; Long division; Ratio and proportion; Fraction multiplication and division; Using money; Area of shapes; Graphs; Currency conversion; Factors and multiples; Length problems; Estimation and approximation; Algebra	17
Paper 4	Multiplication problems; Division problems; Scale; Fractions to percentages; Measures addition and subtraction; Prime numbers; 24-hour clock; Mass problems; Money problems; Angles and degrees; Measures multiplication and division; Time problems; Missing numbers; Probability; Perimeters; Estimation and approximation; Capacity problems; Mean, median, mode and range; BODMAS; Sequences	23
Paper 5	Addition and subtraction problems; Timetables; Writing large numbers; Large number problems; Decimal addition and subtraction; Symmetry; Percentage problems; Long division; Using money; Length problems; Bar charts; Money problems; Ratio and proportion; Angles and degrees; What is my number?; Sequences; Algebra; Factors and multiples; Currency conversion; Divisibility rules	29
Paper 6	Simple addition and subtraction; Pie charts; Simple multiplication; Simple division; Long multiplication; Decimal multiplication; Decimal division; Reduce to lowest terms; Fraction addition and subtraction; Fractions to percentages; Shape properties; Estimation and approximation; Graphs; Missing numbers; Angles and degrees; Area of shapes; Distance = speed × time; Capacity problems; Measures conversion; Money problems	35
Paper 7	Multiplication problems; Division problems; BODMAS; Fraction multiplication and division; Magic squares: fractions; Reflection and rotation; Coordinates; Mass problems; Prime numbers; Large number problems; Speed = distance ÷ time; Length problems; Scale; Money problems; Time = distance ÷ speed; Mean, median, mode and range; Unequal sharing; Roman numerals; Area of shapes; Angles and degrees	41
Progress chart		48

A pull-out answers section (pages A1 to A12) appears in the centre of this book, between pages 24 and 25 (Paper 4). This provides answers to all the questions, along with guidance on marking the papers. Remove the pull-out section before the child begins working through the practice papers.
