

Contents

Paper 8	Long multiplication; Decimal addition and subtraction; Symmetry; Decimal multiplication; Decimal division; Reduce to lowest terms; Fraction addition and subtraction; Fractions to percentages; Missing numbers; Prime numbers; Measures addition and subtraction; Mass problems; Length problems; Factors and multiples; Time problems; Speed = distance \div time; Time = distance \div speed; BODMAS; Proportion; Estimation and approximation	4
Paper 9	Simple addition and subtraction; Pie charts; Simple multiplication; Simple division; Multiplication problems; Division problems; Shape properties; Fraction multiplication and division; Venn diagrams; Fraction problems; Coordinates; Money problems; Long division; Ordering fractions; Division with remainders; Capacity problems; Reduce to lowest terms; Algebra; Ratio; Scale	11
Paper 10	Addition and subtraction problems; Writing large numbers; Large number problems; Timetables; Decimal problems; Percentage problems; Pictograms; Money problems; 24-hour clock; Distance = speed \times time; Measures multiplication and division; Probability; Ordering decimals; Measures conversion; Perimeters; Sequences; Estimation and approximation; Unequal sharing; Area problems; Angles and degrees	18
Paper 11	Writing large numbers; Decimal multiplication; Fractions to percentages; Scale; Prime numbers; Measures addition and subtraction; Length problems; Pie charts; Time problems; Speed = distance \div time; Mean, median, mode and range; Proportion; Volume; Ratio; Algebra; Fraction multiplication and division; Roman numerals; Measures multiplication and division; Symmetry; Negative numbers	25
Paper 12	Long multiplication; Shape properties; Decimal division; Place value; Venn diagrams; Using money; Money problems; Reflection and rotation; What is my number?; Cube numbers; Measures addition and subtraction; Graphs; Division with remainders; Mass problems; Triangles; Square numbers and roots; Time = distance \div speed; Area of shapes; Metric/imperial conversions; Negative numbers	32
Paper 13	Multiplication problems; Decimal problems; Large number problems; Coordinates; Long division; Fraction problems; BODMAS; Fractions to decimals; Area problems; Probability; Bar charts; Capacity problems; Scale; Percentage Problems; Translations; Graphs; Measures conversions; Angles and degrees; Ratio; 24-hour clock	40
Paper 14	Money problems; What is my number?; Length problems; Equivalent fractions; Time problems; Algebra; Nets; Sequences; Mean, median, mode and range; Volume; Magic squares: fractions; Reflection and rotation; Roman numerals; Probability; Proportion; Measures multiplication and division; Area of shapes; Unequal sharing; Compass points; Metric/imperial conversions	48
Progress chart		56

Note for parents, tutors, teachers and other adult helpers

A pull-out answers section (pages A1 to A12) appears in the centre of this book, between pages 28 and 29 (Paper 11). This provides answers to all the questions, along with guidance on marking the papers. Remove the pull-out section before the child begins working through the practice papers.
