

Introduction

This book gives you practice in answering verbal reasoning questions quickly.

The questions are like the questions on the 11+ and other school selection tests. You must find the correct answers.

School selection tests are usually timed, so you need to get used to working quickly. Each test has a target time for you to work towards. Ask an adult to time you.

What you need

- A pencil
- An eraser
- A clock, watch or stopwatch
- A sheet of rough paper
- An adult to time you and to mark the test for you

What to do

- Turn to **Section 1 Test 1** on page 4. Look at the grey box at the top of the page labelled **Target time**. This tells you how long the test should take.
- The adult helping you will tell you when to begin.
- Find this arrow ↓ near the top of the first page. Start each test here.
- Find this square ■. The instructions for the first set of questions are beside it. Read them carefully.
- Look below the instructions. Read the **Example**. Work out why the answer given is correct.
- Use a similar method to answer question 1. Show your answer in the way that the answer is shown in the example. For instance, you might need to write your answer on the line or underline the correct answer.
- Try to answer every question. If you do get stuck on a question, leave it and go on to the next one. Work quickly and try your best.
- Each test is one page long. When you reach the end, stop and tell the adult that you have finished.
- The adult will mark your test. Then the adult will fill in the **Score**, **Time taken** and **Target met?** boxes at the end of the test.
- Turn to the **Progress chart** on page 40. Write your score in the box and colour in the graph to show how many questions you got right.
- Did you get some questions wrong? You should always have another go at them before you look at the answers. Then ask the adult to check your work and help you if you are still not sure.
- Later, you will do some more of these tests. You will soon learn to work through them more quickly. The adult who is helping you will tell you what to do next.
