

Introduction

This book gives you practice in answering English questions quickly.

The questions are like the questions on the 11+ and other school selection tests. You must find the correct answers.

School selection tests are usually timed, so you need to get used to working quickly. Each test has a target time for you to work towards. You should time how long you spend on each test, or you can ask an adult to time you.

What you need

- A pencil
- An eraser
- A clock, watch or stopwatch
- An adult to help you work out how long you take and to mark the test for you

What to do

- Turn to **Section 1 Test 1** on page 4. Look at the grey box at the top of the page labelled **Target time**. This tells you how long the test should take.
- When you are ready to start, write down the time or start the stopwatch. Or the adult helping you will tell you to begin.
- Read each question carefully and then write the answer on the answer line. Sometimes you need to tick or underline the correct answer instead.
- Try to answer every question. If you do get stuck on a question, leave it and go on to the next one. Work quickly and try your best.
- Each test is two pages long. When you reach the end, stop. Write down the time or stop the stopwatch. Or tell the adult that you have finished.
- With the adult, work out how long you took to do the test. Fill in the **Time taken** box at the end of the test.
- The adult will mark your test and fill in the **Score** and **Target met?** boxes.
- Turn to the **Progress chart** on page 40. Write your score in the box and colour in the graph to show how many questions you got right.
- Did you get some questions wrong? You should always have another go at them before you look at the answers. Then ask the adult to check your work and help you if you are still not sure.
- Later, you will do some more of these tests. You will soon learn to work through them more quickly. The adult who is helping you will tell you what to do next.
