

The horizontal join to v and w

Use horizontal joins to join letters that finish at the short letter line to the next letter. You have already learnt to join from **o** to **i** and **u**.

Take the join across from **o** to the start of the new letter. Go straight down to form the letter **i** or **u**. Slope down to form the letter **v** or **w**.

oi ou ov ow

Try it

- 1 Trace and then write the joined letters.

oi oi

ou ou

ov ov

ow ow

- 2 Trace and then continue the joined patterns.
